Urban Tree Alliance Subsidized Services

The Urban Tree Alliance offers subsidized tree care services to residents of Dane County who make below 60% of county median income (CMI, see table at right). The price of these services is based on a discount from market rate. Property owners making less than 60% of CMI pay 60% of market rate for tree care services.

Household Size	60% of CMI
1	\$34,860
2	\$39,840
3	\$44,820
4	\$49,740
5	\$53,760
6	\$57,720
7	\$61,680
8	\$65,700

For example, a family of two making \$39,000 annually are at 60% of CMI and would therefore pay 60% of market rate for tree care services (if a job were estimated at \$500, they would pay \$300).

Household Size:
